*** All Running Start courses must be pre-approved by your high school counselor before you register, including all courses not listed above. Be aware that some courses require additional fees outside of tuition. Classes with a course number below 100 (for example, Math 90) are not paid for through Running Start and will grant either partial or no high school credit depending on the subject.**

****College PE classes are not usually 5 credits per semester. Keep the credit conversion from college to high school in mind: 1 college credit = .2 high school credit. A 2 credit PE class will lead to .4 high school credit.**
